Welcome Everyone!

Thank you to all of our 2018 consignors for this year's Midwest Sale. The sale brings 131 lots of Texas Longhorn Cattle from breeding programs from all over the United States. It is always a great time when old friends and new friends gather in the Heartland to share in what all breeders love the most; "Texas Longhorn Cattle". To those of you who are new to Texas Longhorn Cattle we warmly welcome you to Winfield, Kansas and hope your time here is special.

The End of Trail Ranch has been hosting the Midwest Sale since 1996 at the same location, and has had the opportunity to not only showcase its program, but to give many of the great programs around the country the same opportunity. The announcement has been made that on June 22-23, 2018 the Total Herd Dispersal of the End of Trail Ranch will take place at the Winfield Livestock Auction. The decision was made that it was the correct time to move forward and begin a new chapter. The History of the Midwest Sale will always be remembered with Mike and Debbie Bowman on the front row doing what they so enjoyed. This is however not the end of the Midwest Sale. Even though Debbie will no longer be hosting the Midwest Sale, it is already scheduled for next year on April 27, 2019 in Winfield, Kansas. We want to thank Debbie Bowman for being a great sale host and bringing together friends from all over the Texas Longhorn world to Kansas.

This year's sale also is proud to announce that Hired Hand Live will be simulcasting the sale live via the Internet. This change was made to bring more Longhorn Breeders together on the platform designed by and for Texas Longhorn Breeders. With 23 years of hosting the Midwest Sale we also want to thank the Brazle family of the Winfield Livestock Auction. With the loss of John this past year, Justin and Leslie have made the Midwest Sale such a great place to come and market Texas Longhorn Cattle.

We hope everyone enjoys today sale, and make your plans to attend next year.

Thanks!

COMMENTS: RR Escondido Red is already a Longhorn legend. At 4-1/2 years old he has more horn than any Longhorn bull has ever had at his age and he produces it too. With parents like Cowboy Up Chex and RR Red Clover, horn is in his genes. He was 42 3/4" TTT at twelve months. He was 70 1/2" TT at twenty four months. He was over 100" TH at 32 months (the only Longhorn bull to ever do that). He was 80 1/2" TTT x 107" TH at thirty six months. He was 84" TTT x 113" TH at forty eight months. These TH numbers are industry leading numbers. He has won 10 bronzes. Now that he is listed for sale, we will stop selling straws and give the straws to his new owner, so that we are not competing with his buyer. He comes with approximately 348 conventional straws. COMMENTS: OCV. RR Red Clover has been a breed icon with her awesome horn and production record. Her daughter, RR Daisy, was an over 60" two-year-old and her son, RR Escondido Red, was over 70" at two years old. Daisy 100" TH before she was three and Escondido had over 100" TH before he was 32 months, in fact no bull has ever had more TH at his age. To date, there have been 23 bronzes won between her and these two progeny. She is a perfect example of where all of today's big horn explosion has come from. Back in the spring of 2010, she was a 33" TTT yearling. She was 57" TTT at two years old, and that was as good as it got in 2011. As we fill out this comment form to enter her in this sale she has 112" TH. That still puts her in about the top dozen cows of all time. She had a calf on 2/10/17, so by sale date she will have an RR Sweet Brindle Dust calf at side. SBD has 115" TH. He is the second longest TH Longhorn bull in our breed - ever. Her sire, 76"+ TTT Sebastian, brings in the proven horn producing genetics of Boomerang and Tabasco's Lezawe that did so well for Mike Bowman. Squaw's dam is a daughter of Diamond W Pay Chex, bringing in the genetics of Bueno Chex, Phenomenon and the legendary Tari Graves FM49. She has given us 5 calves and is exposed to 75.50" TTT TS Lone Star, for an awesome spring calf. Squaw's offspring are Millennium Futurity eligible. More info at tsadocklonghorns.com.

COMMENTS: OCV. We bought this beautiful cow from Mike when she was 28 months old. She had lost her first calf in a storm and we knew that would hold her back. However, we saw the potential, the color and the femininity she possessed. She bred back and calved the following year and has given us a colorful calf every year since. We sold her first calf at this sale but have kept all the rest of her females in our herd. She is a heavy milker and good producer. The 2017 Rebel HR heifer at her side shows what she can do.
