"Summer Pearl" has an outstanding amount of horn period.... but considering her maternal genetics (outcross) which are normally a bit slower on the front end she is way out front in the race. On the maternal side her dam "Red River Summer Wages" (90" tt and Mega TH) possesses a double portion of "Lambs Temptation" being heavy in legendary "Eileen Day" and "Betty Lamb" Breeding. "Lambs Temptation" is out of the great cross

Total Horn: 94.7500 on 09/29/2022
