CHERRY BLOSSOM SALE 2021

APRIL 16-17, 2021 | CULPEPER, VA

WELCOME TO THE CHERRY BLOSSOM SALE

Dear Texas Longhorn Breeders,

We want to welcome everyone to the 2021 Cherry Blossom Sale. This winter and spring has been different than years past between dealing with Covid and the extreme cold the Midwestern part of the country has experienced. One thing we can say for certain is the unknown we had last year at this time is not as worrisome. There was a lot of uncertainty last year, this year we are rolling right along.

The market here on the East Coast is getting stronger every year. More and more breeders are popping up all over, more and more are participating in events, the beef market is growing like crazy for those pushing it. This sale, or the ancestry of this sale, began 32 years ago. We're incredible proud of how this sale continues to grow.

After a record breaking 2020 Cherry Blossom, 2021 brought us a big increase all across the sale, from sale ads, to consignments, to sponsors. We are so grateful for everyone's enthusiasm and it only brings confidence to the markets and what the East Coast brings.

Once again, the Cherry Blossom Futurity will be happening too. Over the last four years these local Futurities have given away over \$25,000 at each Futurity in prize money. The deadline for the Cherry Blossom Futurity is March 26th, so get yours in before then.

Be safe, we'll see you for the Cherry Blossom Sale

Sincerely,

Ann, Bear, Chase, Debbie, Lane, and Mike

WHY THE YELLOW HIGHLIGHTS?

We wanted to be different and create a new feature to your standard sale catalog. Each of the yellow highlighted animals are over 80" TTT. Thanks to Hired Hand, we were able to track down many of these measurements. Although we're well aware that there are many great cows under 80" TTT, we wanted to give some extra promotion to the consignments who pulled from the heart of their herds. Thank you to each and every consignor!

THE FUTURITY MONEY EARNERS

The Official Money Earners List for Longhorn Futurities

This year of 2021 brings a whole different level to the Futurity world. Our goal is much like the Millennium Futurity's "For the promotion of Longhorns." We want to add another value to these cattle that are quantified. In 2021 we are going to offer five award buckles for five different categories. Multiple futurities have already committed to helping collect this data meaning that their shows will be added to these figures. Any checks won in any of these shows will be represented on the Futurity Money Earners List for both the sire and dam of that money winning animal, as well as the owner of that animal. Special thank you to Molly & Jaymie at Hired Hand for their belief in this concept. Hired Hand has sponsored this year's buckles.

2021 FUTURITY MONEY EARNER AWARD BUCKLES

presented by Hired Hand Software

- Bull of the Year awarded to the sire whose offspring wins the most money
- Cow of the Year awarded to the dam whose offspring wins the most money
- Exhibitor of the Year awarded to the show contestant that wins the most money
- Producer of the Year awarded to both sire and dam whose offspring wins the most checks of the year

Please contact Beardavidson@ymail.com to add your futurity to the list.

LONGHORN LEGACY GRANT

“I feel very honored and thankful to be part of a group of people who believes in taking care of each other and promoting the betterment of each other. Getting to know members who are the legacy of the Longhorn industry is a good way to continue the memories of the people, their values, and their knowledge on to the next generations. I am very grateful to be able to say that I am student debt free because of the longhorn industry.”

-2020 Winner Melissa Boerst

“We are beyond blessed and grateful for being awarded the Legacy Grant. Beside the obvious benefit of the monetary award, the grant allowed us to become more connected with the past and the present Longhorn industry. It was an honor to be able to try and capture a small part of the Legacy of Mike Bowman, which will live on for generations to come in the Longhorn industry.”

-2020 Winner Josh Shaw

Texas Longhorn breeders are family. They have roots and youth, and, like any family, they have needs. The Texas Longhorn Legacy Group is committed, on the one hand, to preserving and honoring roots for both the breed and of important breeders, and on the other to helping fellow breeders in need. Toward that end, “The Longhorn Legacy Grant is designed to help longhorn families address the epidemic of educational debt while, at the same time, making sure that the future of the breed doesn’t forget the past while immersed in the present. Whether that debt arises from loans for college, a technical school, or some other recognized education institution for which student loans are available. The goal is to help pay down, or off entirely, educational debt for Longhorn breeders.

We understand the significant and sacrifices that every breeder incurs when they become involved in this industry we love so much. The goal is to make direct a direct impact on those with heavy debt while, in return, asking them to help all of us remember some of the giants in this breed who are no longer here.

Those who apply for a grant will be asked to research and write an in-depth two part essay about past breeders who made a memorable impact on the breed while alive, folks like Ben Gravett, Joe Graddy, Joe Valentine, Mike Bowman, Mel Raley, John Allen, Bill Le’An, and Bill Davidson to name just a few. The first part will consist of interviews with friends and family of the person being remembered followed by a footnoted biographical sketch of that person of no less than 1,500 words. The second requirement will be an autobiographical sketch explaining the application’s involvement in the breed, including but not limited to a description of their program, why and how they became interested and involved in the breed, their goals, and how debt is affecting their progress and their life in general. Each report submitted, whether a winner or not, will become the property of the Texas Longhorn Legacy Group, will be available, with proper attribution, to breeders and the public, and may be published in trade magazines or other media. The Texas Longhorn Legacy Group will be the sole judge of whether to make any award in a given year, and each award, if any, will be based on merit and not on any other criteria. Each year a panel of Longhorn breeders will be selected to review applications and to determine whether an award is justified and, if so, to who it shall be given. Any winner will be honored and his or her check will be presented at the next Legacy Sale.

COMMENTS: A direct daughter out of the great Fifty-Fifty BCB bull, with that high Texas horns that made the original Longhorns famous. This is truly a unique opportunity. She will add to your herd some of the newest, hottest bloodlines with the look that created the passion for these animals. The job this young mother is doing on that heifer baby is simply amazing! When you factor in the pedigree, to that pretty little heifer, you've got something that should make your hand fly up and stay there. Then throw in that she could be a 3-N-1 package, the excitement just keeps building, the possibility of buying 3 for the price of 1. BREEDING:

COMMENTS: OCV'd. Here's a great little young heifer. Sired by Destination Up by Cowboy Up Chex. Cowboy Up was the first of three brothers that include the \$140,000 100" TTT Cowboy Tuff and Cowboy Catchit Chex. On the bottom side, Up is out of the VJ Tommie daughter BL Little Bertha from Bob Loomis' herd. This brings in your Butler influence that has a major impact on horn. DAM: **Couture II** (J.R. Viking x 7 Bar Blazer Courture)

BREEDING: Not Exposed

COMMENTS: Born on Halloween, this girl is anything but scary! She might be the prettiest Longhorn we've ever raised. The color that comes through in this heifer when she slicks off will take your breath away. Not to mention that she is a planned breeding of the most powerful, lateral horn, twisting cattle in the breed. Her mother is a 80"+ cow that broke off a very large amount of horn, when she was young, but still managed to hit that exclusive 80" mark with a twist. Her sire hit 77" at 3- with a very cool horn shape. 8 out of the 14 animals listed in her pedigree are brindle and almost half of them are in the 80" TTT range. You've heard of "homozygous" black, well she might just be homozygous brindle- if there is such a thing. If you want to add pretty to your herd, if you want to add the possibility of twist to your herd- well here she is! See more at www.see4longhorncattlecompany.com
